

Dear Hiring Manager:

It is a pleasure to write this letter of recommendation for Alexandre Costa.

I am Orlando Ribeiro, Head of Core Engineering at Glookast. I have more than 18 years of experience working with multimedia in the professional broadcast world. As a team leader, I have seen many young professionals come and go. Alexandre Costa is one individual I have worked with who definitely stands out.

During our time together, Alexandre displayed great talents in the front-end development task. To do that, he managed to learn and easily control Angular or Typescript to fulfill his work with success. When we first met, I was immediately impressed with Alexandre and the fast learning ability he had, since the work we develop in Glookast has a lot of specificities.

My first experience with Alexandre's adaptability came before he was hired. Still as a Glookast candidate, I have asked him to develop a small user interface application which illustrate a very specific topic about our development area – VTR Controller. After a few days, he was able to create the application covering all the most important things of the controller. Even without knowing about the real usage of a VTR Controller, Alexandre was able to understand the concept and develop an application that made him being part of the Glookast team.

It is not his technical skills that call my attention, however. Alexandre was a joy to work with because of his amazingly positive attitude and eagerness to complete his tasks. His can-do attitude and willing to help were also valued not just by myself, but by the rest of the team.

I am absolutely confident that Alexandre would be a great fit for the position.

Please let me know if I can provide more information about Alexandre. Do not hesitate to contact me by e-mail at orlando.ribeiro@glookast.com. I would be happy to further elaborate on my time working with him.

Sincerely,

Orlando Ribeiro

Head of Core Engineering at Glookast
